

Rainfall Detection using Machine Learning

AI Prediction Report

Result: No Rainfall Expected

Rain Probability: 0.0%

Confidence: 100.0%

AI Summary: Stable pressure and lower rain probability suggest mostly dry conditions. Humidity is 61%, cloud cover is 20%, pressure is 1011 hPa, and wind speed is 35.4 km/h.

Recommendation: Weather looks manageable. Keep checking live updates before long travel.
