

Rainfall Detection using Machine Learning

AI Prediction Report

Result: No Rainfall Expected

Rain Probability: 6.3%

Confidence: 93.7%

AI Summary: Stable pressure and lower rain probability suggest mostly dry conditions. Humidity is 80%, cloud cover is 75%, pressure is 1012 hPa, and wind speed is 11.1 km/h.

Recommendation: Weather looks manageable. Keep checking live updates before long travel.
